CUSTOM LABEL SPECS

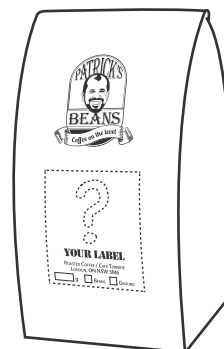

Custom Label

Ever wanted your own custom coffee product? Now's your chance. I'll work with you to develop a signature custom blend for your business. Not only is our product hand-roasted, it's actually hand-stamped as well, giving it that extra special old-timey feel. It makes custom labelling easy as well - I'm happy to put whatever you like on your coffee bags, provided it won't get me into too much trouble.

DESIGN NOTES

- Vector art in PDF format is preferred.
- Please don't make your lines too thin. It won't convert well into rubber.
- Single colour (a stylish stamp black).

Private Label

Private label services are available for larger volumes. Please call me to discuss, if you're interested in a private label product line. (226-378-5100)
